Last year, we **provided at least one direct service** to **1,875 people**.

We helped **228 people** with **workforce services** like a job search and resume creation.

64 people received one-on-one **English Tutoring or Computer Training**.

90 people received **free or low-cost dental services** (cleanings or youth check-ups).

Over 700 people received **Mexican Consular services**.

We are just one client away from helping **100 people** attain **U.S. citizenship**.

We scheduled **507 appointments** for clients who otherwise would have remained disconnected with vital services.

Collectively, we help our families save about \$170,000 a year by providing free and low-cost services, reducing travel distances to access services and helping people find new and better jobs. And this is a **BIG DEAL** when you consider that . . .
